

# Download Organics In The Global Food Chain

At BioHiTech Global, we are working to change the future of the waste management services industry. True organics is our business. It is our mandate and mission to guarantee traceability of the organic supply chain from the farm to the shelf. Connected Globally. Delivered Locally. Olin added Dow's global chlorinated organic assets to its own in 2015, making Olin the world's largest supplier of chlorinated organic products and services. Logistics is a specialized field of its own comprised of shipping, warehousing, courier services, road/rail transportation and air freight. Retail companies become involved in supply chain management to control product quality, inventory levels, timing, and expenses.
